Article Alert – Current Awareness on Hot Research Topics
http://www.lib.ied.edu.hk/resources/ alert/index.html

To further support teaching, learning and research needs of our staff and students, the Library has developed a new Alert Service on selected hot research topics. By subscribing to the Alert Service, staff and students will receive notifications regularly of newly published journal articles on specific topics which they are interested in. The alert notifications will be generated automatically by major e-databases subscribed by the Library. Library users can opt to receive the alerts via e-mail or by RSS feeds.

1. *Subscribe Article Alert via RSS*
Use a web browser with built-in RSS function (e.g. Internet Explorer or Firefox) or install a RSS news reader on your PC. Access the Library's Article Alert webpage at

http://www.lib.ied.edu.hk/resources/alert/index.html.   A list of research topics selected by the Library will be displayed.   You can view the content or subscribe to any specific topic by clicking the RSS icon next to it.   Your RSS-enabled browser or RSS reader will inform you when new articles are published in that particular subject area.

2. *Subscribe Article Alert by E-mail*

Simply fill in your HKIEd e-mail address and select the topics which you are interested in at http://www.lib.ied.edu.hk/resources/alert/alertform.html.   Monthly   updates   on   articles published on your selected topics will be sent automatically to your e-mail account.

The new Article Alert service is still a pilot.   Academic colleagues are welcome to suggest new topics   to   be   included   in   the   service,   or   how   the   existing   topics   can   be   refined   to libsearch@ied.edu.hk.   Alternatively, researchers may use our SDI (Selected Dissemination of Information) service, in which our Information Professionals will construct a well-focused and tailor-made search profile according to the search criteria specified by you.   Please contact the Information Services Section at 2948-6653 for further information or submit your SDI request online at http://www.lib.ied.edu.hk/info/forms/staff/sdi.html.

For further information on the new or existing library services, please feel free to contact our Information Counter at 2948-6653 or email libinfo@ied.edu.hk.

為了進一步支援本校師生在教學、學習和研究方面的需要，圖書館現已推出「Article Alert」新出版文獻提示服務。登記使用此項提示服務之後，讀者便可以定時收到由圖書館所訂購的電子數據庫所發出，有關某特定主題的最新期刊文獻資訊。讀者可以隨意選擇通過「簡易資訊整合(RSS)頻道」或電子郵件接收有關資訊。

1. 透過 RSS 頻道訂閱
請使用配備訂閱 RSS 頻道功能的互聯網瀏覽器(例如 Internet Explorer 或 Firefox)，或者預先在您的個人電腦上安裝一個 RSS 閱讀軟件。然後從圖書館「Article Alert」網頁(http://www.lib.ied.edu.hk/resources/alert/index.html) 上所顯示的特定主題清單中，選擇您感興趣的主題，直接瀏覽該主題的內容。您亦可以點擊每一主題旁邊的 RSS 標誌訂閱該主題，此後您將會自動透過瀏覽器或者 RSS 閱讀軟件收到所選學科領域的最新期刊文獻資訊。

2.　　透過電子郵件訂閱

您只需要在以下網頁 http://www.lib.ied.edu.hk/resources/alert/rss_form.html 填寫一份簡單線上表格，內容包括教院的電郵地址以及選擇您感興趣的主題，即可於每月透過電郵獲取有關主題的最新期刊文獻資訊。

「Article Alert」仍屬試驗階段。歡迎各位老師提議新的主題，或者如何改善現有主題的內容。各位可以將建議電郵至 libsearch@ied.edu.hk。此外，您也可使用我們現有的「定期資料提供服務 Selective Dissemination of Information」(SDI)，圖書館的專業人員會根據您的研究項目選擇合適的數據庫，設定搜索範圍及建立搜索專題檔。請致電 2948-6653 向諮詢服務組查詢詳情，或從以下網頁 http://www.lib.ied.edu.hk/info/forms/staff/sdi.html 提交線上申請表。

有關圖書館最新或現有服務的詳情，歡迎致電 2948-6653 與諮詢服務台職員聯絡，或電郵至 libinfo@ied.edu.hk。
