2. **ORCID (Open Researcher and Contributor ID)**

- Support [ORCID](#), the unique and persistent personal identifiers which connect the researchers with their research outputs and activities

3. **Visualized collaboration network**

- Showcase visually research activities of HKIEd researchers and their collaborative partners, both locally and globally

4. **Publication bibliometrics**

- Provide citation metrics on publication pages, e.g. number of times a publication has been cited in Web of Science or Scopus

5. **Page view and download statistics**
