

Academic Search Ultimate: A Major Upgrade to Library's Electronic Resources

The University Library has recently upgraded *Academic Search Premier*, one of our most popular databases, to *Academic Search Ultimate*. The new *Academic Search Ultimate* offers EdUHK students and staff an unprecedented collection of peer-reviewed full-text journals, many of which indexed in major citation indexes.

Academic Search Ultimate's combination of academic journals, magazines, periodicals, reports, books and videos meets the needs of students, scholars and researchers in virtually every discipline in arts and humanities, social sciences and STEM, ranging from astronomy, anthropology, biomedicine, engineering, health, law and literacy to mathematics, pharmacology, women's studies, zoology and more. It features thousands of English-language and native-language full-text journals from Asia, Oceania, Europe and Latin America, facilitating students and researchers to seek a broader and more global perspective in their study and research.

The benefits of upgrading *Academic Search Premier* to *Academic Search Ultimate* are highlighted in the following table:
